

FIRST AID

IF IN EYES- Hold eye open and rinse slowly and gently with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice. **IF ON SKIN OR CLOTHING-** Take off contaminated clothing and rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice if irritation persists. **IF SWALLOWED-** Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED-** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice. **NOTE TO PHYSICIAN-** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed. **PHYSICAL AND CHEMICAL HAZARDS-** Combustible. Do not use or store this product near heat or open flame. **IN CASE OF EMERGENCY-** Call the local Poison Control Center. Have the product container or label with you when calling a Poison Control Center or doctor or if going in for treatment. **PERSONAL PROTECTIVE EQUIPMENT (PPE)-** Applicators and other handlers must wear a long sleeved shirt and long pants, socks and shoes, goggles or face shield and chemical resistant gloves (such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, polyvinyl chloride, or viton). **USER SAFETY RECOMMENDATIONS-** Users must wash hands before eating, drinking, chewing gum, using tobacco or using the restroom. Users must remove PPE immediately after handling this product. Wash the outside of the gloves before removing. As soon as possible, wash thoroughly and change into clean clothing. Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

DIRECTIONS FOR USE- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. BARBICIDE PLUS is recommended for use on brushes, combs, rollers, manicure and other salon tools used in beauty salons, barber shops, and hair styling establishments. BARBICIDE PLUS is effective for immersion disinfection of inanimate, non-porous surfaces. Use at a use dilution of 1:128 (1/4 ounce per 32 ounces of water or 8 ml per liter). **DISINFECTION-** Thoroughly clean and rinse instruments before immersion in disinfectant solution. Immerse instruments completely for 10 minutes at room temperature (20°C/68°F). After immersion, remove instruments and rinse them thoroughly. Fresh solution must be prepared daily or more often if solution becomes visibly dirty. **STORAGE AND DISPOSAL-** Do not contaminate water, food or feed by storage or disposal. **STORAGE-** Store in securely closed original container. Avoid storage at temperature extremes or in sunlight. **PRODUCT DISPOSAL-** Securely wrap original container in several layers of newspaper, and discard in trash. **CONTAINER DISPOSAL-** Do not reuse container. Replace cap and discard container in trash.

CONFIRMATION- When tested with full immersion at room temperature for 10 minutes in a solution created as directed, BARBICIDE PLUS was confirmed effective against Mycobacterium tuberculosis, Pseudomonas aeruginosa, Staphylococcus aureus (including MRSA), Salmonella enterica, and Trichophyton mentagrophytes. **VIRUCIDAL*.-** Kills Human Immunodeficiency Virus type 1 (HIV-1, AIDS VIRUS) on pre-cleaned environmental surfaces or objects previously soiled with blood or body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces or objects with blood or body fluids, and in which the surfaces or objects are likely to be soiled with blood and body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus type 1 (HIV-1, AIDS VIRUS).

SPECIAL INSTRUCTIONS FOR CLEANING AND

DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS) OR SURFACES OR OBJECTS SOILED WITH BLOOD OR BODY FLUIDS. PERSONAL PROTECTION-

Disposable gloves should be worn when cleaning blood or body fluids or contaminated items. Hands should be washed immediately and thoroughly after gloves are removed, or if hands are contaminated with blood or body fluids. Masks and protective eyewear or face shield should be worn during cleaning procedures for protection against splashes of blood or other body fluids. Gowns or aprons should be worn during cleaning procedures for protection against splashes of blood or other body fluids. **CLEANING PROCEDURE-** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant. After cleaning is complete, follow disinfection directions described previously.

CONTACT TIME- Leave surfaces wet for 10 minutes. Let air dry. **DISPOSAL OF INFECTIOUS MATERIALS-** Contaminated waste and blood and other body fluids should be autoclaved and disposed of according to local, state, or federal regulations for infectious waste disposal.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Corrosive. Causes irreversible eye damage or skin burns. Product may be fatal if swallowed. Harmful if absorbed through skin or inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing spray mist. Wear safety glasses, goggles or face shield. Wear protective clothing including long sleeve shirt and long pants, socks, shoes and chemical resistant gloves such as water proof gloves.
